 - ➔ RIPPLE PAPER CUP
 - ➔ SINGLE WALL CUP
 - ➔ TEA COFFEE CUP

➤ Duplex Paper

- ➔ Duplex paper has a white surface on one side and a grey back on the other is known as Grey back duplex. And duplex consist of both side white is known as white back duplex. It has a white surface that can be Uncoated, LWC and HWC.
- ➔ It is highly stiff to the touch. A flat surface that form the board. Widely used and supplied in the printing and packaging and other items because of their good smoothness and thickness.
- ➔ These coated duplex boards are ideal for covering high-quality items since they have lustrous, dust-resistant surfaces. These boards have a high-grade material coating that gives them strength and durability. This premium paper board is more suitable for packing high-end goods.

☆ APPLICATION :

- ➔ Printing and Packaging
- ➔ Packing Board
- ➔ Multi Color Printing Jobs
- ➔ Education & Stationary
- ➔ Food & Beverages
- ➔ Soap & Detergents Boxes
- ➔ Garment Box
- ➔ Sweet Boxes
- ➔ Pharmaceuticals Boxes

➤ Duplex Paper

| Sr.No. | Board Quality | GSM | Brightness | BF | Stiffness Variation | Bulk Variation | Gloss |
|--------|----------------------------|-------------|------------|----------|---------------------|----------------|-------|
| 1 | Uncoated Grey Back Duplex | 180-280 GSM | 74 % + | 12 to 14 | ±10 | ±5 | ±5 |
| 2 | Uncoated White Back Duplex | 180-280 GSM | 74 % + | 12 to 14 | ±10 | ±5 | ±5 |
| 3 | LWC Grey Back Duplex | 200-480 GSM | 74 % + | 12 to 14 | ±10 | ±5 | ±5 |
| 4 | LWC White Back Duplex | 200-480 GSM | 74 % + | 12 to 14 | ±10 | ±5 | ±5 |
| 5 | HWC Grey Back Duplex | 200-480 GSM | 74 % + | 12 to 14 | ±10 | ±5 | ±5 |
| 6 | HWC White Back Duplex | 200-480 GSM | 74 % + | 12 to 14 | ±10 | ±5 | ±5 |

➤ Smell Free kraft paper

- ➔ Smell Free Kraft is entirely biodegradable. It is made by recycling used paper. It is available in Natural and Brown shade. It is mostly used to manufacture corrugated boxes, although it also has other uses in the packing business.
- ➔ We have Contracted in reputed kraft paper mill So that we can provide quality goods to our customers.
- ➔ As a result, we are now known as a rapidly expanding kraft paper trading company in India. Our premium kraft sheets are extremely strong and have a variety of uses.

★ APPLICATION :

- ➔ Pharma Industries
- ➔ Food Industry.
- ➔ Corrugated box Manufacturing
- ➔ Paper bags
- ➔ Grocery shops

| Sr. No. | Type of Paper | BF | Colour |
|---------|-----------------------|---------|-----------------|
| 1 | Kraft Paper (Low BF) | 16 - 24 | Brown / Natural |
| 2 | Kraft Paper (High BF) | 24 - 35 | Brown / Natural |

➤ Virigin kraft paper

- ➔ A ideal packaging paper is virgin Kraft paper. It generally comes in Kraft paper and bleached kraft paper which is white in color. When strength and durability are required for difficult wrapping and interleaving applications, our Virgin Kraft sheets perform well over there.
- ➔ Virgin Kraft Liner is a premium paper that is created primarily from pulp and contains about 20- 40 BF. It is incredibly durable and sturdy.
- ➔ Because of the excellent finishing and strength it is used in extra ordinary packing purpose and in manufacturing of paper bag.

☆ APPLICATION :

- ➔ Paper Bag
- ➔ Printing & Packaging
- ➔ Stationery products
- ➔ Branded packaging
- ➔ Arts and crafts
- ➔ Heavy-duty industrial packaging

➤ Virigin kraft paper

| | |
|----------------|-------------------------|
| GSM | 40 - 180 |

| Pulp Material | Wood Pulp / Bamboo Pulp |
| Color | Brown / White |
| Material | Kraft Paper |
| Packaging Type | Reels & Sheets |
| Width | Customizable |

➤ Cupstock Paper

- ➔ Food - safe cupstock paper can be used for both hot and cold food drinks. It is typically employed in food packaging, with the paper being first PE coated before being used.
- ➔ This is created using high-quality paper that has undergone extensive testing, modern equipment, and cutting-edge technology.
- ➔ The paper cup raw material that we supply is a PE-coated and can be Clay coated. We supply paper in different GSM with required width.

☆ APPLICATION :

- ➔ Paper cup manufacturing
- ➔ Soup bowls
- ➔ Food Containers

| Sr.No | Colour | Quality | PE Coating / Clay Coating |
|-------|--------|---------------|--|
| 1 | Kraft | 240 - 360 GSM | PE Coating / Clay coating 15 - 20 GSM |
| 2 | White | 140 - 280 GSM | PE Coating 15 - 20 GSM |

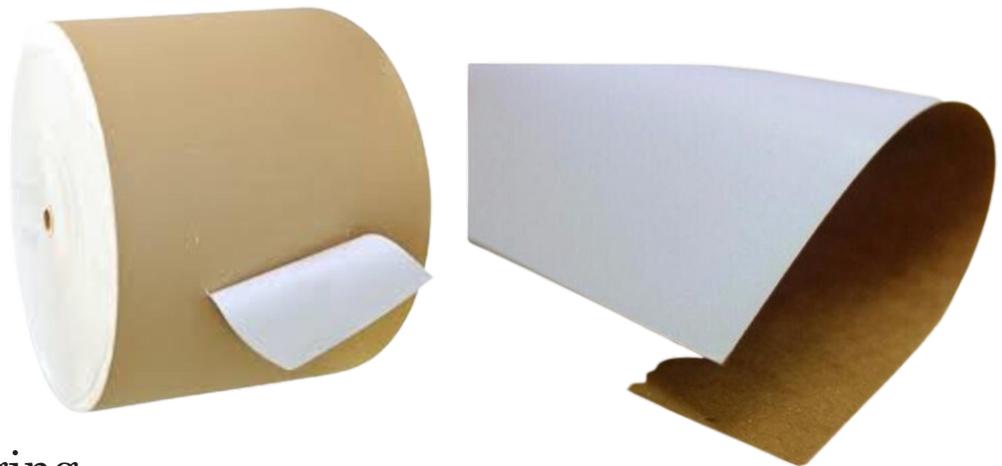

➤ White Top Test Liner

- ➔ The White Top Testliner paper has two Ply. The top side is either made of new fibres or recycled fibres that have been bleached; the bottom side, which is either brown or grey, is entirely made of waste paper.
- ➔ This upgraded quality's coated top side offers a smoother and brighter surface for superior appearance and printing outcomes. This paper is often offered by domestic mills in the 14bf to 28bf size range with a GSM of 80-360 GSM.
- ➔ They are primarily employed in the production of paper bags, paper plates, paper cups, corrugated boxes, and corrugated sheets among many other products.

☆ APPLICATION :

- ➔ Corrugated Box
- ➔ Flat Box
- ➔ Cake Box
- ➔ Pizza Box
- ➔ Printing & Packaging

| Sr. No. | GSM | BF | Brightness |
|---------|--------------|---------|------------|
| 1 | 80 - 360 GSM | 14 - 28 | 60 - 80 % |

➤ MG Poster Paper / Sandwich Paper

- ➔ MG Poster is an MG grade that is 100 percent recycled and has high strength and superb whiteness. Moreover, it has a rough side on back side and a shiny side on front side.
- ➔ It is the ideal for these demanding applications because of its constant profile and good glaze To satisfy our clients' various needs, we can provide these items in a variety of sizes. It is prepared in sheet form for wrapping purposes. And It will be offered in box packaging with printed or unprinted paper
- ➔ For printing coating and laminating applications, it provides high bulk and strength characteristics. Consistent cross profile is also included for improved conversion.

★ APPLICATION :

- ➔ Printing jobs
- ➔ Lamination
- ➔ Wrapping and Packaging
- ➔ Inserts for garments and shoes

➤ MG Poster Paper / Sandwich Paper

| Sr. No. | GSM | Qualification | Brightness | Size | Quality |
|---------|----------------|---|------------|---------------------|------------------------|
| 1 | 17 - 60 GSM | Roll Form | 80 - 90 | Customized width | Printed / Unprinted |
| 2 | 17 - 60 GSM | Sheet Form (Also available in box packaging) | 80 - 90 | 20 * 30 | Printed / Unprinted |

➤ Chrome Paper

- ➔ Chrome Paper consist of shiny & polished one side with reverse side uncoated which has highest use in printing purpose.
- ➔ It generally comes in white color because it is convenient for printing for art folders, exhibition backdrops, gift boxes, cards, and memory book covers, its thick weight is perfect. This paper is ideal for adding a touch of refinement to any project.
- ➔ Chrome paper may be cut with scissors or a craft knife for freehand patterns and is suited for cutter plotters or silhouette machines. Our esteemed clients may simply get this paper from us at lower costs and in bulk quantities since it is incredibly cost-effective.

☆ APPLICATION :

- ➔ Gift boxes

➤ Chrome Paper

➤ Baking Paper

- ➔ Baking paper is manufactured by putting paper pulp sheets into a bath of sulfuric acid or rarely in zinc chloride. The paper is slightly dissolved or gelatinized during this procedure.
- ➔ This process creates a sulfurized cross-linked material that has good non-stick or release capabilities due to its high density, stability, heat resistance, grease resistance, water resistance, lack of loose fibers, and low surface energy.
- ➔ The characteristics of baking paper are equally useful in other fields too. Like the exterior coating of parchment provides the requisite resistance to abrasion, heat, and oil in the textile tube business.

☆ APPLICATION :

- ➔ In Bakery
- ➔ Kitchen purpose

➤ Baking Paper

| Sr. No. | Packaging Type | Size | Quality (GSM) |
|---------|--------------------------------|---------------|---------------|
| 1 | Box Packing with Roll 9 Meter | 29.5 CM width | 44 GSM |
| 2 | Box Packing with Roll 20 Meter | 29.5 CM width | 44 GSM |
| 3 | Sheet Form | 30 * 30 cm | 44 GSM |

➤ Tissue Paper

- ➔ Tissue paper or simply tissue is a light weight paper used for drying purposes. This variety of tissue papers is appropriate for multiple use like facial application, bathroom use & Kitchen purpose.
- ➔ These papers, which are available in roll and sheet forms, offer a very good surface roughness level. These have adequate fluid absorption capacity. These papers, which come in single and multi-ply standards, offer a unique brightness level.
- ➔ Tissue sheets are made from non-toxic raw materials and they are biodegradable. Our range of tissue paper is skin-friendly and made from virgin wood pulp. We provide tissue paper that has a delicate texture and has extremely great absorbing nature.

☆ APPLICATION :

- ➔ Facial tissue
- ➔ Bathroom Tissue
- ➔ Kitchen Tissue

| Sr. No. | Tissue Configuration | Packaging Type |
|---------|----------------------------|----------------------|
| 1 | Toilet Tissue Paper Roll | 10 * 10 cm 320 Pulls |
| 2 | Bathroom Tissue Paper Roll | 20 * 20 cm 100 Pulls |
| 3 | Kitchen Tissue roll | 20 * 20 cm 75 Pulls |
| 4 | Car Tissue Box | 20 * 20 cm 100 Pulls |
